

EXCEPTIONAL ACCESS PROGRAM WEEKLY TURNAROUND TIMES

	STAT	RUSH	BIOLOGIC	NON-RUSH
Target Turnaround in Business Days	3	5	10	Up to 6 weeks
Current Turnaround On December 1, 2016	2	3	5	3 weeks

Examples of the types of drugs in each queue

Note that turnaround time represents the response time targeted by EAP staff for requests with complete information to administer the funding criteria. Requests requiring a review by an external medical expert may prolong the response by the program and this may be of impact to expected turnaround times particularly for drugs in the stat and rush queues. Note that the examples are not “all-inclusive” and there may be factors that may cause a request to be assessed more urgently.

	STAT	RUSH	BIOLOGIC	NON-RUSH
	<ul style="list-style-type: none"> · Cancer drugs and supportive cancer treatments · Anti-infectives, · Presurgical drugs · Drugs for palliative care · Initial requests for opioid dependence 	<ul style="list-style-type: none"> · Multiple Sclerosis drugs · Pulmonary Arterial Hypertension · Idiopathic Pulmonary Fibrosis Agents · Hepatitis B treatments 	Biologics for most funded indications	<ul style="list-style-type: none"> · Chronic medications for Attention Deficit Hyperactivity Disorder · Chronic Hepatitis C drugs · Migraine medications · Drugs to treat chronic pain · Drugs for chronic asthma
