

# POWER YOUR EMR with a better view™

## Upgrade your system. Save time.

Quality improvement is finally here! Introducing RheumView™. An intuitive interface to your existing EMR where information is organized, more accessible & customized to your practice supporting a more efficient delivery of care.

## Designed for Rheumatology practice.

Allows you to see what is relevant for quality of care and offers you real visibility into your practice. A workflow solution for inflammatory arthritis with a focus on better patient outcomes.

### Saves you time

- Immediate note generation and charting
- Provides real time input & feedback with full clinic visibility

### Makes life easier

- Easy to use and intuitive and fully funded for ORA members
- A smart tool that integrates seamlessly and effortlessly with your existing EMR
- Smart rheum design that follows and prompts your workflow

### Improved Experience

- Earn valuable section 3 credits by accessing introspective view of your practice
- A snapshot of what you're doing well and what needs work
- Provides you the insights from your EMR you always expected

You already go above and beyond to ensure optimal patient care,  
**your system should be powered to do the same.**
